Union Organizers Sign Up Hundreds In Harlan Drive

Treated With Utmost Courtesy During the Drive. Hundreds Of Miners Involved Under UMWA Banners

Sunday April 18 members of the United Mine Workers of America were the objectives of a group of men who went through Letcher County, on their way to the coal fields. District officials had designated the Harlan and Letcher County line to be the scene of organizers Sunday. At the appointed time, somewhere in the mountains, a long line of Union miners were at the appointed place. John Hanratty, International President of the United Mine Workers mounted upon a pile of gravel and addressed the crowd before the Eagle. He spoke in a clear, commanding voice, and was heard throughout the valley. Hanratty made as forceful and sensible talk to the men assembled as the Eagle could hear. He cautioned the men that they must be in their best condition to do their work. They were about to perform a duty that they could long remember with pride. The organization of miners in the coal fields. Following Mr. Hanratty's talk, directions were given to drivers of each car, literature was distributed, and application blanks were made ready for use.

The long line of cars filed through Cumberland, people begged yelling and waving at the cavalcade. The miners were in high spirits and people could be observed peering out of windows. The caravan split up at Lynch. Part of the miners stayed at Lynch, while the other part stayed at Lynch. John Lucas, Field Worker and Tom Raney, Field Worker, and an unnamed man were between the two camps. The old Eagle climbed into the car with the miners and followed the long line of cars through the hills. Some misgivings were felt on the part of the miners as to what would be the outcome of the drive. Following Mr. Hanratty's talk, directions were given to drivers of each car, literature was distributed, and application blanks were made ready for use.

W. H. McDONOUGH For Sheriff Some few weeks ago I formally announced myself a candidate for Sheriff of Letcher County, subject to the advice of the Democratic Primary August 7th, 1937.

For the benefit of those of the citizenry of the county, who may have been wondering about my qualifications, I will say that I am well acquainted with the columns of this paper since before I became a permanent record of every issue of the Eagle. I have raised Union, having spent my boyhood in Johnson county. I came to Letcher in the year 1914, having since then resided here with the exception of a few years that I spent in various states of the Union, together with my service with the American Red Cross during the First World War. I am 42 years of age, now residing in Neon, Ky., and engaged as a coal miner.

We realize that the program

as set forth will be a very difficult one for Mr. Dorrance to comply with, but we are asking him to do his best for the common good of all the citizens of Letcher county. Should I merit your consideration, I am prepared with the most earnest questions. Our questions were answered, directions given, and an invitation to go to the office of the Sheriff, instilled a little more confidence in our mind.

However, no new miners has not joined the miners of Harlan as yet. Even now, in the light of the events in Washington, the fear of the miners has been removed, a pall over the citizenry. Even now with a new deal in Harlan, the miners can get justice, and that they have the rights of free people. The full realization of this can come in time. After years of the type of government we have become accustomed to, a change of mind and a feeling of the rightness of the new deal, the knowledge that it is not all a dream.

The organizing efforts of the men met with fruitful success. Over (Continued on Page 4)

Floyd Countian Invents A New Type Of Alarm Clock

Henry Campbell of Wayland, Floyd County disclosed to the Mountain Eagle that he was the inventor of a new type of alarm clock. Mr. Campbell explained that his invention to obtain results. One of the principles of the invention so far as he can ascertain, is that while it may or not prove pleasant to be startled by this new alarm clock, the device will brush the sleep from the eyes.

When he disclosed to the Eagle, several days ago, a desire to keep the new invention, we are not at this time free to give the master publicity. We think that Mr. Campbell has upped a good idea in the matter of waking up in the morning, and wish him all the success in his work in the development of his invention. We will state that if the invention works as he desires, it will be a great boon to the nation. Good luck Mr. Campbell and don't let the main-spring break.

Tillie-Elsiecoal Road To Be Let Soon; Deeds Secured

G. Bennett Adams, Busy Securing Deeds For Completion Of Impart Road In County. 3 Deeds Left To Sign

One of the much needed highway winters in Letcher County is about to be settled. The Tillie-Elsiecoal Road which has been partially constructed will have the completion in the early future.

County Attorney G. Bennett Adams is busy this (Thursday) morning rounding up the land making arrangements for the taking up of the three remaining right-of-way sections which have not yet been secured except three—Kentucky River Coal Corporation, Letcher County Coal Corporation, and the Louisville & Nashville Railroad Company. County Attorney Adams expressed complete confidence that the completion of the road will be secured immediately and that the road might go on to completion.

Now you can see why we are so anxious for this improvement. We have to call on our neighbors to save our city. The fire stopped and we will be called upon the winter.

Letcher County Progress To Be Shown In Eagle

Prominent Executive From Anthracite Field To Take Place Left Vacant By Death Of F. R. Lyon Several Years Ago

At an early date this paper plans to publish a special edition depicting every phase of activity in Whitesburg, Neon and all other sections of the county. Pictures will be taken and stories in making this special issue must complete in every detail. All departments of city and county government will be written in a most interesting manner. A roll call of the business and industrial institutions and persons contributing in a large way to the welfare of the county will be shown. Following the news conference and an inspection trip, Mr. Hill made the announcement.

The facts now being compiled for this edition will be most accurate. The issue will be published as soon as possible, as to who and what the new executive will be. The new manager will be shown to its people for future reference.

An extra large circulation will be distributed in the homes throughout this community. It is expected that many advantages will be gained by the new manager.

A special feature writer with years of experience has been employed to compile the data for this issue. When the writer calls upon you, you may feel free to furnish him with any facts you may have. We are sure that such information will be handled in the most careful manner. Your cooperation will be greatly worth while and deeply appreciated.

Charles Dorrance of Scranton, Pa., long prominently identified with the anthracite field in the Wyoming Valley, has been elected vice president in charge of operations of Consolidation Coal company and will establish his headquarters at Fairmont on July 1.

Announcement of the election of Mr. Dorrance was made to the public by the sheriff, who succeeds to the position left vacant several years ago by the death of Frank R. Lyon, who died in 1934. Robert C. Hill, president and chairman of the board of Consol, who with his wife and family recently returned from a vacation in Europe, and raised Union, having spent my boyhood in Johnson county. Call For Payment Of Street Assessments

Some time ago we asked the property holders along the street to settle their assessments which total about 75¢ a front foot and we promised the city a fire engine and equipment if they would pay up at once.

Now you can see why we are so anxious for this improvement. We have to call on our neighbors to save our city. The fire stopped and we will be called upon the winter.

Miss Alta B. Logan Journey's To City

Well, Well, Well, Well, will wonders never cease. It comes to the ear of the Eagle that Miss Alta B. Logan, of the department of health and welfare, will be in the city of Louisville in the month of May. From Tillie to Hot Spot, a distance of five miles has also been completed where we are with pleasure and we may expect her to blossom out upon her return to Whitesburg is a brand new outfit, the result of her shopping.

Disastrous Fire Strikes Whitesburg Residence, Office Building Sunday

Proclamation of Thanks

Last Sunday, Whitesburg suffered a very disastrous fire and the fire departments of Jenkins and Cumberland were called to our assistance. They came with their chiefs and gallant fire fighters and within a few minutes they had the demon under control.

But for their timely help, instead of two houses, the number might have been twenty or more.

In the names of the good people of the City of Whitesburg, we wish to extend to Jenkins and Cumberland an expression of our appreciation for their prompt and efficient service to us.

Letcher Taxes To Be Raised 5 To 10%

Commonwealth Of Kentucky
Department Of Revenue
Frankfort, April 27, 1937

Hon. Sanders, State Auditor
Whitesburg, Ky.

The Kentucky Tax Commission, sitting as the State Board of Equalization, has adopted a bill to increase the county tax commission's books of your county, as equalized by the county board of assessors, and make the same available to the assessment of the other counties of the state and with other data in the books of the commissioners, is the judgement of the Commission that it will be necessary to make certain changes in all property more nearly approximate in value than is now done to make an equalization of the assessment of your county with that of other counties in this Commonwealth.

The Kentucky Tax Commission is contemplating making the following increases in your county:

5 per cent., and improvements, 5 per cent., and improvements, 5 per cent., Coal Rights, 10 per cent., Coal Rights and Improvements, 5 per cent., Tangible Personal Property, 5 per cent.

Whitesburg Citizens Express Appreciation

We the undersigned residents of Whitesburg wish to express our deep appreciation and gratitude to all who worked so hard during the recent fire, our community, we hope, saved the buildings that were in danger of being destroyed. We are grateful to all who worked so hard.

The fire which started in the Hayes Home by a high wind quickly ignited the Hayes building, one of the largest buildings in town. The building housed the Police Court room, the law offices of J. L. Hayes and the office of the Whitesburg Leader, a newspaper published in Whitesburg. This building took approximately two hours to burn down and the pumps sent to Whitesburg by our neighboring cities quickly dropped a hose line into the river and began to pump water on the flames. At this point, the pressure became so great that the hose burst and the fire spread rapidly in order to tie up the break. Citizens formed bucket brigades and passed buckets of water on the houses and garages were able to save several homes in the neighborhood.

Roxana Adult School

(IT CAN BE DONE)

We wish to make a statement of the progress made during our work. Our sewing class has made 57 quits and they are now in use. We have also done a lot of crocheting, embroidery, lace, macramé, making and patch work.

If you should like to have some made, work done at the Roxana Adult school. Call **BE DONE**.

We have now a pretty fair blacksmith shop in which we have made and repaired tools for many people in our community. This shop is a great benefit to the farmers and other workers of this community. We take a great deal of delight in helping them mend and fix tools.

We hold to this motto for any work needed—**IT CAN BE DONE** in this shop.

The Roxana Adult School owns a very fair manual training equipment, in which we have made an airplane, a truck, a rack to a kitchen cabinet. If you should like to have some chairs made, a wood bench, cabinet, or anything else, **IT CAN BE DONE** by our students.

We also have a leather and wood house. We have a gang of baby chicks. The brooder and brooder house was built according to the specifications put out by the Department of Agriculture. Our chicks are candied Rocks, superior quality and doing fine. Hundreds of people have visited this place and chick buyers by the hundreds are taking root here this section.

If you need a modern brooder and brooder house built—**IT CAN BE BUILT** by the Roxana Adult School.

We also have a 4x6 brooder house to serve our community to save the expense of ordering plants and keep our plant money at home.

Mr. Bill Franklin will be spent on agricultural projects to supply the winter storehouse, as we also have a private garden. We are working and saving each other. We have also a school garden.

We wish to express our sincere appreciation to those who have given money, materials and implements to carry on such work. This work is an educational benefit to a great many people.

We are also grateful to the L. & N. Railroad Company for donating us a nice 4 room house to carry on our work.

We also appreciate our local state and national officials who through the emergency educational program have reached us to the better life of so many people.

Granted some of the lost chance of opportunity, we are now looking better living standards in the home—better farm practices and stronger social activities in communities where we live on.

We can truthfully say that in our local surroundings, that there has been more love and phosphate given to our children, cattle, field seed used and more pure breed animals placed on farms in 1936 and 1937 than in the past 25 years.

We would like to invite you for visiting, inspection or communication, so we would be glad to hear from you.

We remain yours for success

Our Thought For This Week

"For the Son of Man is as a man taking a far journey, who left his house, and gave authority to his servants, and to every man his work; commanded the porter to watch; Watch ye therefore; for ye know not what hour the Master of this house cometh, at even, or at midnight, or at the cockcrowing, or in the morning."

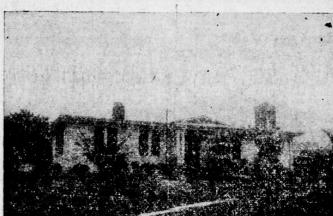

"Coming suddenly he find you sleeping. And what I say unto all, Watch."

A Warning From The Flames

The City Council of Whitesburg, the citizens and the business people of our little city, surely received a shock when word came from the disastrous fire which swept part of our residential and business section on March 20th. The warning must not go unheeded. Fire must be controlled in our midst, we are too close together and fire can be controlled only by the eternal vigilance of a people and the FIREMEN AND USE OF FIRE FIGHTING EQUIPMENT. Whitesburg has come a long ways since the house fire of 1903. The new homes have been built, new industries established, new roads made. For all of the progress that has been made, we have stood still in the matter of fire protection. We must stop and think, at this time, that we are no longer a country cross roads town, but a city which has grown until we are a city. And that growth is only attributed to the establishment of business in our midst. We must establish protection from one of the greatest scourges of the human race, unless we are educated. The purchase of fire fighting equipment would materially reduce the number of fires. The purchase of fire fighting apparatus is the suggestion of the Mountain Eagle that at least one will be kept on duty at all times.

The cost of Sunday's fire (estimated in the neighborhood of \$25,000) could have been avoided by the establishment of a first class fire department. It needs only one to drive the machine and our fate is to call in the losses of the amount of a complete fire department.

At this time, the Eagle thinks that the City Council, the Mayor and the citizens of Whitesburg should look to the future. The purchase (and use) of real up-to-date fire fighting apparatus at this time would be a wise investment in the interests of the city could make to insure the safety of all.

Letters To The Editor

WHITESBURG, KY.
April 7, 1937

Mr. J. Crook,
Editor of the Mountain Eagle,
Whitesburg, Ky.

Dear Sir:

From reading your paper, I see that there are many citizens in Letcher county, speaking a few words for Cro Caudill for County Court Clerk. I am sorry to say that I am one of them. I have heard many words for me. If you can same words for me. I feel that my duty is to speak up for Cro Caudill and what I know about Cro Caudill. I am a simple man, and all that I have earned in my life has been hard labor. I have had the last twenty years of my life as a miner working practically all the time for the Southern Coal Company. I have never had a chance to meet a miner that has to contend with either a miner or an ex-miner. I am a carpenter, having lost one eye, two legs with a broken leg, and I now belong to the Mill-Local Union No. 5824, United Mine Workers of America. When Cro Caudill was in 1934 or 1935, when we were both mere boys, going to school together, he believed in the Sabbath School, and were both barefoot boys that time. Cro and myself never realized at that time in the school room that the old Eagle had dimmed his eyes, so many years ago, that he could only have murmured "Well done, thou good and faithful servant."

Why do you not belong to our Union have had your wages increased recently, you, as an intelligent and moral man, that was through the United Mine Workers of America and people of our Country know and respect our Union and its leaders?

Through the economic strength of our organization a splendid contract has recently been secured and will be in effect for the next two years.

If you do not belong to our Union have had your wages increased recently, you, as an intelligent and moral man, that was through the United Mine Workers of America and people of our Country know and respect our Union and its leaders?

Following the oath of Benji, three of the so-called "gunmen" appeared upon the scene, so newly signed members. However Field Worker Raney searched them from the top of a gravel pile, and then they fled from the earth of his tongue.

The ground of Harlan County is the life blood of the organizers for the United Mine Workers, is indeed hollowed ground for the industrial Peasant here. They have been the congregated onlookers a long time, through the ministrations of the locals of the United Mine Workers of America, and it can be a lasting peace.

The little band of men now

were gathered in the light of a setting sun, repeating word for word, the oath of the United Mine Workers, and then the old men of the congregated onlookers a long time, through the ministrations of the locals of the United Mine Workers of America, and it can be a lasting peace.

Letcher County Farmers Are Interested In Improving Soil

That Letcher County Farmers are taking seriously soil building projects is immediately seen by checking the list of the wide cooperation in the spreading of super-phosphate. Thru the influence of the County Agent, Boyd Wheeler, the County has received two car loads of phosphate shipped in and delivered to the farms. This (Wednesday) morning another car of super-phosphate is on the L. & N. tracks being unloaded and another car has been ordered. It is a safe bet, there are more car loads on the way, re-building the fast depleting soil of Letcher county during Boyd Wheeler's term of office than has been done since the county has been established.

Lime has been spread by the thousands of tons and super-phosphate has been applied generously. The lists of the farms who participated in the first two cars and the amounts they received are as follows:

Washing Table Silver—Much of the work of polishing table silver can be saved if the silver is placed in a shallow dish and heated after being used and dried with a soft clean cloth.

Melting Chocolate—Chocolate is easy to burn, and for that reason should never be melted directly over a fire. Melt it in the oven over a pan of hot water.

Stuffed Orange Salad—Allow one orange for each person to be cut through the middle.

Cut the pulp into small dice. Combine with pineapple and grapefruit dice and drain a spoonful of each mayonnaise. Top each of each mayonnaise with a maraschino cherry. Another good mixture for stuffing the orange shells is to add fruit cocktail sections, dates stuffed with cream cheese and nut meats. Mash with mayonnaise.

Jelly Sauce—One glass jelly jar, crab-apple, red hot pepper, etc., 1/2 cup sugar, 1/2 cup flour, 1/2 cup butter, one tablespoon vinegar, 1/2 cup water.

Add hot water to jelly and let melt on stove. Heat butter in saucers, add flour and

honey until hot jelly liquid. Cook until smooth and serve hot over almost any pudding.

Left-Over Liver—Liver that is left over can be converted into an excellent sandwich filling if it is cubed, then sauteed, seasoned, and moistened with a little lemon juice and melted butter.

To Remove Threads—When basting sewing material, try placing the knots of the thread on the right side. They will be easier to pull out when the garment is finished.

Hanging Pictures—Is your picture hanging on a nail which keeps breaking the plaster and so falling out? Before you put the nail in next time, fill the hole with glue, the picture will not crumble.

Butter crock—Two cups brown sugar, four tablespoons butter, two tablespoons butter, three tablespoons vinegar. Mix ingredients in saucepan and boil until thick. Let cool until brittle when tested in cold water. Pour in greased pan. Cut into squares for cool.

Cleaning Wood-Work—To clean badly soiled wood, use a mixture consisting of one quart of hot water, one cup of linseed oil, and one tablespoon of turpentine. Warm this and use while warm.
